Early Childhood Program 3-Year-Old Curriculum Guide

Bible - Positive Action Bible Curriculum- Exploring God's Love

Our Positive Action Bible Curriculum captivates the imagination of our 3-year-olds and introduces them to God's love. Interactive learning approaches are used to teach in concrete, approachable ways and bring the bible alive in the classroom.

All Subject Integration - Pathways for Pre-School

Our 3-year-old Pathways program encourages the love of learning through a Christian-based philosophy. Many subjects and skills are reinforced through age-appropriate songs, rhymes, games, crafts, group circle time, individual learning centers, and other activities.

Reading

Students will develop pre-reading, phonemic, letter recognition and language expression skills.

Math

Counting, sorting, sequencing, shape and color recognition are foundational math skills developed in the 3-year-old classroom.

Social Studies

Students develop introductory social studies awareness throughout the year.

Science

Science observation, inquiry and exploration skills are incorporated into daily routines.

Social Development

Our structured classrooms provide safe, loving environments that are paramount for your child's social development. With a lower teacher to student ratio, your child will receive the attention they need to develop socially. Students will learn to interact appropriately with other students, exhibit good manners and respect, exhibit self-control, and learn independence.

Our Mission: To provide a superior education in a warm, caring atmosphere that will equip students to serve and lead in Christ.
